#### **7. Update from Inspector – Detachment Commander Terry Ward.**

A verbal update on policing matters within the Town of Orangeville from OPP Inspector – Detachment Commander Terry Ward

OPP Inspector – Detachment Commander Terry Ward advised that the new Traffic Management Unit is now in operation. The Unit has three members and may increase depending on the demand. Traffic complaints have been regular concerns for

Orangeville citizens. He noted that 12 new recruits have joined the Orangeville OPP Detachment in Orangeville.

Inspector Ward noted that all Officers from the Orangeville Police Services detachment have all successfully completed their probationary year and have been successful in their new OPP roles.

Chair Taylor inquired about the new towing strategies and for an update on the arrival of the "Black Cat" traffic enforcement devices. Inspector Ward noted that they have not yet been received.

Inspector Ward noted that on Friday, October 22, 2021 Officer Roach will be coming to the Joint Meeting of the Dufferin County Section 10 Police Services Boards to discuss the newly implemented towing policies.

### Anti-Vaccination Protests

Chair Taylor informed the Board that members of the public have express concerned about the behavior of some protestors. Inspector Ward advised that the more police are visible, the more protestors may be reacting negatively towards the police. It was noted that protestors have the right under section 2 of the *Charter of Rights and Freedoms* to demonstrate peacefully.

### Towing – Presented by OPP Inspector Spong-Hooyenga

Inspector Spong-Hooyenga informed the Board that there are considerable dangers and risk to members of the towing community as a result of corruption and criminality.

June of 2020, the OPP partnered with the Ontario multi-agency towing taskforce.

The OPP has the use of a mandatory electronic equipment that will capture every OPP interaction with tow truck drivers. To be on the approved OPP list, tow and storage service operators will be required to submit an annual application for towing and storage services operators (TSSO) in the communities they serve. The application is available on the OPP website. Operators will be required to authorize the OPP to conduct criminal background checks on all towing and service providers. Guidelines are available for providing towing services under the OPP's mandate on the website. Applications are to be submitted on November 1, 2021 for the 2022 calendar year. It was noted that the GTA and Hamilton area, the Ministry of Transportation is implementing tow zone changes on the 400 series highways. Those on the 400 series highways will be exempted from the OPP process as they are under a different pilot program.

### Timelines

November 1, 2021 is the deadline for applications.

Chair Taylor requested clarification that the towing providers were informed on September 15, 2021. Inspector Ward advised that there is no current towing association in Dufferin County. Operators had 2 months to have documentation in – many of the operators are not educating themselves on the industry changes.

November 30, 2021 is the deadline for Detachment Commanders to approve towing and storage providers to provide services in the community.

January 1, 2022 the new towing services list will be in effect.

Vice-Chair McSweeney inquired as to whom the towing services providers obtain licensing from.

Inspector Spong-Hooyenga clarified that these providers would be on the list to be a service provider for legislated tow services or those requested by the OPP to authorize the tow.

Member MacIntosh inquired of the OPP if this will resolve the “chasing” issue that can cause potential risks for the public. Inspector Spong-Hooyenga advised that a TSSO request is only done once per shift to resolve the concerns of “chasing”.

Chair Taylor requested clarification of the once per shift call out. Inspector Spong-Hooyenga clarified that there will be a list that will ensure that the same towing service provider is not being used consecutively. It was noted that all tows will be requested equitably and fairly and will not be given to the first on the scene.

Inspector Ward noted that all the TSSO requirements will be in compliance with any local bylaws that are already in place.

Member MacIntosh inquired as to whether the Town should continue to pursue a towing bylaw and if one is required with the TSSO implementation forthcoming. Inspector Spong-Hooyenga noted that there is an education period that will occur during implementation with all the stakeholders.

Rob Howes of Orangeville Towing inquired how the dispatch will be controlled. Will it be the OPP or a dispatch center that would be required with a 1-800 number. Inspector Ward advised that the call outs will occur in order directly to each service provider. Mr. Howes inquired as to how the service providers will be dispatched if the driver is not able to select a provider. Inspector Spong-Hooyenga advised that the OPP under the non-legislated tow will occur and the OPP will dispatch according to the list.

Chair Taylor noted that this policy is to prevent multiple towing providers showing up on scene. Mr. Howes noted that standardized pricing in the industry could be consideration for the bylaw to improve the interactions between towing operators and drivers. Inspector Spong-Hooyenga advised that section 65 under the *Consumer Protection Act* mandates that TSSO's provide a list of prices per service.
